The eSwingo 200+ is the first fully electric compact sweeper from Schmidt. It is ideal for daily cleaning and sweeping duties in inner-city and pedestrianised areas plus industrial locations and multi-storey car parks. The eSwingo 200+ is not only one of the cleanest compact sweepers on the market, but it also pays for itself in the overall whole life cost calculation. With the eSwingo 200+, up to 85% of energy costs and up to 70% of maintenance costs can be saved compared to a model with a diesel engine.
